30g

# AOP Charentes-Poitou Butter

Since 1905, this butter has been made in the traditional style from the cream of pasteurized milk from farms in the Poitou-Charentes, France, using natural culture and slow churning. The butter's quality and integrity benefits from the Protected Designation of Origin (PDO) label:

AOP Beurre Charentes-Poitou. Butter Charentes-Poitou is distinguished from other butters by its strong smell of thick cream but also a greater richness in lactose, which gives its fruity notes. The butter is 100% natural, no dyes, antioxidants or deacidification substances.
